

CONFERENCE & STACKING

Step

Step is a very flexible and functional chair range suitable for a multitude of different environments.

Step is available with four legs, on castors or on a cantilever frame which can be specified with a black, grey, white or polished chrome finish. Each chair can be specified with arms and upholstery pads for seat and back. The range also incorporates a mesh back and an optional writing table which can be fitted on either side of the chair. The Step range also offers a beam system from two to five seats with optional table.
