TASK SEATING

The mark of responsible forestry

nomi — master of transformation

Choose between three sizes of backs, two seat sizes, three mechanisms, four arm versions and a wide range of accessories to suit the users ergonomic requirements, workstation and budget. Nomi offers a solution to everyone.

customisation is nomi's key feature

Choose between four arm options: Fixed ring arms, height adjustable arms, height adjustable tube arms, height adjustable fold down arms.

Synchro mechanism with body weight/height tension adjustment. Easy to adjust and encouraging a healthy and dynamic posture.

Height adjustable, contoured back for optimal support available in three sizes: medium, high and extra high.

Moulded foam seat for increased comfort, available in two sizes. All seats are height adjustable and offer optional seat depth adjustment.

Optional headrest to support and relax neck and shoulders.

PCB mechanism offers back angle adjustment whilst the seat stays in a fixed position.

ISB mechanism offers independent seat and back angle adjustment with tension adjustment. Leave mechanism unlocked to encourage body movement.

Choose between a black nylon, satin or polished aluminium base or a draughtsman base with foot ring and glides.
