

# MODULAR & LANDSCAPE

## Infinity

Infinity is ideally suited for large open spaces. The modular bench system combines flexibility and comfort with striking looks.

The single, double and three seat benches can be paired with a distinctively shaped back ply that is available in veneer and colourful HPL finishes. The position of the single or double back rests can be specified to create a diverse seating configuration. The range incorporates fully upholstered 45° and 90° wedge benches to create curved seating landscapes. Tables are incorporated between the benches. Choose between straight, 45° or 90° linking tables in a matching wood veneer, HPL or frosted glass finish.

### FEATURES AND OPTIONS

- Upholstered 45° and 90° wedge benches
- Upholstered back pads available as single, double or three back to allow multiple combinations
- Back ply is beech veneer or white HPL as standard
