ERGONOMICS AT WORK

www.nominique.com

The mark of  
responsible forestry

- ergonomics
- comfort
- cost-effective

Reflex has been designed to give optimum support and individual comfort throughout the work day, enhancing the productivity of your team. Reflex offers a cost-effective solution that can be customised to meet the requirements of each team member. Reflex is simply ticking all the boxes.

Optional adjustable head rest to support neck and shoulders

Height adjustable, supportive and gently contoured back, available in two sizes: medium and high.

Moulded foam seat for increased comfort with optional memory foam or split seat foam density.

fully adjustable for individual comfort and support in key ergonomical locations

Choose between adjustable arms, 4D adjustable arms or fold down arms to suit a multitude of workstation and users.

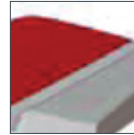

Two easy to adjust mechanisms: Synchro and Ergo (ISB) to encourage a healthy and dynamic posture.

Both mechanisms have body weight tension adjustment.
